9. Mutually beneficial trade arises when one country has a **competitive** advantage
10. Government–placed restrictions on trade between nations are **trade barriers**

II – Read the text and choose the best answer

Company's pricing decisions depend on one or more of three basic factors: production and distribution costs, the level of demand, and the prices (or probable prices) of current and potential competitors. Companies also consider their overall objectives and their consequent profit or sales target, such as seeking maximum revenue, or maximum market share, etc. pricing strategy must also consider market positioning: quality products generally require “prestige pricing” and will probably not sell if their price is thought to be too low.

Obviously, firms with excess production capacity, a large inventory, or a falling market share, tend to cut prices. Firms experiencing cost inflation, or in urgent need of cash, tend to raise its prices.

When sales respond directly to price variations, demand is said to be elastic. If sales remain stable after a change in price, demand is inelastic. Although it is an elementary law of economics that the lower price, the greater the sales, there are numerous exceptions. For example, price cuts can have unpredictable psychological effects: buyer may believe that the product is faulty or of lower quality, or will soon be of high quality, or will soon become very hard to get hold of, and so on.

1. When pricing, a company needs to consider
 - A. Production and distribution costs, the level of demand, and the prices
 - B. Production and distribution costs, the level of demand, the prices of current and potential competitors, overall objectives, sales targets and market positioning**
 - C. Production and distribution costs, the level of demand, and the prices of current and potential competitors
 - D. Production and distribution costs, the level of demand, the prices of current and potential competitors, overall objectives, and sales targets
2. Companies intend to reduce prices when
 - A. They are in the excess of production capacity**
 - B. They are experience cost of inflation
 - C. Their market share is raising
 - D. Both A and C
3. The word “elastic” in paragraph 3 is closest in meaning to
 - A. Stable
 - B. Unstable
 - C. Changeable**
 - D. Unchangeable
4. In the law of economics, prices and sales are usually.....
 - A. Inversely related**
 - B. Not related to each other
 - C. Independent
 - D. Dependent
5. Contrary to the good effects, the cutting of prices may.....
 - A. Result in high sales
 - B. Attract more customers
 - C. Increase demand for products

D. Be misunderstood by buyers

V – Match the words with definition

Dilution	Guarantee	Merger	Expenditure	Transaction
Grant	Mortgage	Acquisition	Subsidiary	Royalties

1. An amount of money given by government or international organization to a country or organization for special purpose, for example, aid package
2. A formal promise or assurance that certain conditions will be fulfilled
3. A situation when two or more companies join together
4. Action of making something less valuable
5. Total amount of money that a company spends

1. grant

2. guarantee

3. merger

4. dilution

5. expenditure

VI – Answer the questions

1. What are the advantages and disadvantages of long-term loans ?

2. How important is financial analysis?

VII – Translation into English

1. Doanh nghiệp cần phải có chiến lược về giá tốt theo từng thời kỳ nếu nó muốn thu hút khách hàng tiềm năng. Ngoài ra một số hình thức khác cũng nên được áp dụng để tăng doanh thu hàng bán như chiến dịch quảng cáo quy mô rộng.

→ **Company needs to have good pricing strategies in each period if it wants to attract potential customers. Besides, some other forms should be applied to increase sales of goods such as widely advertising campaigns**

2. Rào cản thương mại đôi khi giúp các doanh nghiệp lớn trong nước vì nó hạn chế cạnh tranh của các doanh nghiệp nước ngoài. Các doanh nghiệp lớn trong nước có nhiều lợi nhuận

→ **Sometimes, trade barriers help large domestic companies because it restricts the competition of foreign companies. Large domestic companies have more profit**

Đề lễ (23/9/23)

I. Fill in the gaps in the following sentences with suitable words or phrases in the box.

10. Third-world countries are afraid of being excluded from the world trading system**by**..... the development of trading blocks such as EU or NAFTA

II. Read the passage carefully and choose the best answer

Banks are places where people can keep their money. Most people use banks to save money in their savings accounts and to pay money from their checking accounts. Today, when a person earns money from their job, their paycheck is often electronically deposited (put) **into their savings or checking account**. Then, he or she can pay their bills by writing checks from their checking accounts or pay online where their bills are electronically connected to their bank accounts.

Banks also **give loans** to people. Banks use the money that their customers deposit to lend to people to buy new houses, cars, or to start businesses among other reasons. The bank makes **money** from lending by **charging interest**. In other words, **people have to pay back more than they borrowed**. This amount depends on how risky the bank thinks the borrower is and how fast the loan is paid back among other things.

Recently, banks are taking a lot of heat for interest rate hikes and fees going out of control. Giving banks business may seem like putting yourself in harm's way, but of course, it still beats hiding your money under a mattress. Understand how banks work, however, and you'll know where to look out for fees and how to avoid lining banks' pockets by paying more interest than you're earning.

1. How are salaries usually paid to the workers nowadays?
 - A. Through bank account**
 - B. Through deposited money
 - C. Through checks
 - D. Through visa
2. How much "interest" do borrowers have to pay?
 - A. Most borrowers don't have to pay interest
 - B. Everyone pays the same amount of interest
 - C. It depends on a lot of things**
 - D. The story doesn't say
3. What do banks NOT do?
 - A. Charge interest
 - B. Allow people to pay their bills online
 - C. Give loans
 - D. Tax people**
4. How does "interest" work?
 - A. Banks require people to pay back the same amount they borrowed
 - B. Banks require people to pay back more money than they borrowed**
 - C. Banks pay people more money than they borrowed
 - D. Banks require people to pay back money they borrowed very quickly
5. How do banks make money?
 - A. Charging interest to those they lend to**
 - B. Electronically
 - C. Saving their customers deposits
 - D. By having a lot of accounts

III. Make up complete sentences using the words or phrases given

1. A certain climate/ particular/ country/ allow/ country/ grow/ agricultural product/ abundance

a certain climate in particular country may allow that country to grow agricultural products in abundance

2. Dumping/ selling/ foreign market/ price below/ cost of production

dumping is selling on a foreign market at a price below the cost of production

VI. English - Vietnamese translation

1. Financial accounting focuses on the reporting of an organization's financial information to external uses of the information, such as investors, creditors for their necessary business decisions.

kế toán tài chính tập trung vào báo cáo thông tin tài chính của một tổ chức cho những người sử dụng thông tin bên ngoài doanh nghiệp, như các nhà đầu tư, chủ nợ để đưa ra những quyết định kinh doanh cần thiết của họ

2. Unlike external auditors, they look beyond financial risks to consider wider issues such as the organization's reputation and growth.

Không giống như kiểm toán viên bên ngoài, họ nhìn xa hơn tới các rủi ro tài chính để xem xét các vấn đề rộng hơn như danh tiếng và sự phát triển của tổ chức.

2. All businesses aim to maximize their profits, minimize their expenses and maximize their market share. To be profitable, companies must not earn high revenues, but also control costs.

Tất cả các doanh nghiệp đều có mục tiêu tối đa hóa lợi nhuận, tối thiểu hóa chi phí và tối đa hóa thị phần của họ. Để có lãi, các công ty không được đạt doanh thu cao mà còn phải kiểm soát chi phí

VI. Vietnamese - English translation

1. Công ty cổ phần có thể huy động vốn khi một số lượng lớn các nhà đầu tư mua cổ phiếu và trái phiếu trên thị trường sơ cấp

joint - stock companies can raise capital when a large number of investors buy stocks and bonds in the primary market

2. Quản lý vốn của công ty kém hiệu quả nếu giám đốc tài chính cho phép 1 số lượng lớn vốn nằm trong ngân hàng hoặc dự trữ quá mức hàng tồn kho

The company's capital management is ineffective if the chief finance officer allows a large capital to be in banks or over-reserved inventory

3. Lý do chủ yếu khiến các công ty thực hiện marketing quốc tế là để khai thác tốt hơn cơ hội tăng doanh thu và lợi nhuận

The main reason why companies conduct international marketing is to be better exploit opportunities to increases sales and profits

10. Independent audit is a **Legally**..... required review of the accuracy of a company's or government's financial records

II. Read the passage carefully and choose the best answer

The three most important industrial economies in the world are, at the moment, facing enormous problems. **Germany** is struggling with the cost of reunification and is **in recession**. **Japan** is also experiencing recession and the **United States** has a large budget deficit. Forecasters and analysts face questions about the prospect of an economic recovery. Here are some of their findings.

The election of a new president of the United States gave hope to the rest of the world. If the US recovered, the rest of the world would face a more promising future. **However, analysis now accepts that the US will only recover very slowly.**

Consumer and investor confidence is still lacking. Large deficits and declining short-term interest rates mean that there is little scope for economic stimulus. The Japanese economy, after years of trade and budget surpluses, is in deep recession and the growth rate has slowed down considerably. German economists have lowered their forecasts for economic growth this year. The lowering of German interest rates may bring some relief to other members of the European Exchange Rate Mechanism (ERM). However, **Germany's importance as Europe's largest export market may decline.**

More forecasters are predicting world growth of only one percent in 1993. Others predict that it will only be after the completion of the GATT (General Agreement on Tariffs and Trade) negotiations that the world economy will improve.

1. According to the article, three most important industrial economies in the world are

A. The USA, China and Japan

B. The USA, Germany and Japan

C. The USA, Germany and China

D. The USA, China and Russia

2. At the present time, recession is being faced by

A. Germany B. The USA **C. Germany and Japan** D. Both A&B

3. The election of a new president of the United States helps the US economy

A. Recover a little

B. Recover a lot

C. Recover impressively

D. Standstill

4. The problems faced by the US are

A. Lack of consumer and investor confidence

B. Large deficits

C. Little scope for economic stimulus

D. Both A&C

5. The lowering of German interest rates may result in

A. Germany's benefit from ERM

B. Germany's budget surpluses

C. Germany's trade surplus

D. Germany's declined importance as Europe's largest export market

III. Make up complete sentences using the words or phrases given

1. In/ manage/ debtors/ , / financial manager/ have to/ negotiate/ generous credit terms/ suppliers/

In managing debtors, financial manager has to negotiate generous credit terms with suppliers

2. Corporate finance/ be/ primarily/ concerned/ maximize/ shareholder value/ through long-term/ short-term/ financial/ planning

Corporate finance is primarily concerned with maximizing shareholder value through long-term and short-term financial planning

V. English – Vietnamese translation. Vietnamese – English translation

1. Tài chính doanh nghiệp giải quyết các hoạt động thường xuyên của dòng tiền của một doanh nghiệp cũng như với các mục tiêu báo cáo tài chính dài hạn (VD: phát hành trái phiếu)

Corporate finance deals with the regular operations of a business's cash flow as well as long-term reporting goals (example: issuing bonds)

2. Có trụ sở chính ở Hoa Kỳ, Apple thiết kế, phát triển và bán thiết bị điện tử, phần mềm, và các dịch vụ trực tuyến trên toàn thế giới

Having the headquarter in the U.S, Apple designs, develops and sells electronic devices, software and online services around the world

3. Thông qua hoạt động xúc tiến thương mại, các doanh nghiệp cung cấp thông tin về sản phẩm và thuyết phục người tiêu dùng mua hàng, nhờ đó họ có thể giành được thị phần lớn hơn

through sales promotion, business provide information about products and persuade customers to buy them, so they can gain the greater market share

VI. English – Vietnamese translation.

1. A business can use a variety of pricing strategies when selling a product or service. The price can be set to maximize profitability for each unit sold and it can be used to defend an existing market from new entrants, to increase market share or to enter a new market

một doanh nghiệp có thể sử dụng nhiều chiến lược giá khác nhau khi bán sản phẩm hoặc dịch vụ. Giá có thể được thiết lập để tối đa hóa lợi nhuận cho mỗi đơn vị bán hàng và có

thể được sử dụng để bảo vệ thị trường khỏi những nhà đầu tư mới, để tăng thị phần hoặc thâm nhập thị trường mới.

2. The tasks of corporate finance include making capital investments and deploying a company's long-term capital. The process of making decisions on capital investment is primarily concerned with capital budgeting

Nhiệm vụ của tài chính doanh nghiệp bao gồm đầu tư vốn và sử dụng nguồn vốn dài hạn của công ty. Quá trình đưa ra quyết định đầu tư vốn chủ yếu liên quan đến lập ngân sách vốn

Bank of america's investment banking cuts

Bank of america corp (BAC.N) is planning to cut about 300 jobs in its investment banking and capital markets group, as it struggles to rein in costs to make up for weak revenue growth, sources familiar with the situation said on tuesday.

The layoffs are not nearly as eye-popping as the bank's job cuts in areas like retail banking. Wall Street companies have broadly been looking at cutting jobs recently. The bank, the second - largest in the United States by assets, is also assigning junior bankers to work with broader groups of companies, the sources said. That move could also lead to more layoffs, the sources said.

The changes for junior bankers are part of the cost- cutting program known as "Project New BAC", which the bank launched last year, the sources said. The program, named for the bank's ticker symbol, is meant to improve profits as a sluggish economy

weighs on revenue growth, and new regulations boost compliance costs. **The bank is also trying to streamline a company that has grown increasingly bloated after decades of acquisitions.**

The first phase of the program is expected to cut about 30,000 jobs and **5\$ billion** in annual expenses in consumer and technology areas over the next several years. Plans for the second phase, which covers investment banking, sales and trading, commercial banking and wealth management, are expected to be finalized in May

1. How does this article describe Bank of America's revenue growth?
a. **Low** b. Moderate c. high d. very high
2. how do these cuts compare to bank of america's cuts in retail banking?
A. They're more severe **B. They're not as severe**
C. They're about the same D. They aren't the same
3. Why is Bank of America "bloated"
A. Because of sluggish economy
B. Because of the junior bankers
C. Because of all the acquisitions they have made
D. Because of new regulations
4. How much will the first round of layoffs cut expenses over the next couple of years?
A. **\$ 5 Bn** B. 30000\$ C. 3\$ bn D. 7\$ bn
5. is Bank of america the largest in the US?
A. Yes **B. No**
C. yes, but it's tied for first place with another bank
D. None of the above

III. Make up complete sentences using the words or phrases given

1. Permanent/ working capital/ use/ keeping/ business/ flowing/ throughout/ year.
Permanent working capital is used for keeping the business flowing throughout the year
2. Corporate finance/ focus/ how/ corporation/ deal/ funding resources/ , / capital structuring, investment decision/
CF focuses on how corporations deal with funding resources, capital structuring, investment decision
3. Inventories/ can/ divide/ raw materials/ work in progress/ finished goods
Inventories can be divided into raw materials, work in progress and finished goods
4. A turnover ratio/ measure/ gross benefit/ relative/ resources expended.
A turnover ratio is a measure of the gross benefit, relatives to resources expended

5. Debt issues/ be/ known/ corporate bonds/ , / which/ allow/ wide/ number/ investors/ become/ creditor/ to the company/

Debt issues are known as corporate bonds, which allow a wide number of investors to become creditors to the company

IV – Match the words with definition

Balance sheet	Mature	Tax return	Obsession	Overdraft
Subsidy	Transaction	Trade barrier	Dilution	Cost accounting

1. An occasion when someone buys or sells something, or when money is exchanged.
2. Something such as an import tax or a limit on the amount of goods that can be imported that makes international trade more difficult or expensive
3. A statement that shows the value of a company's assets and its debts.
4. The process or action of making a company's shares less valuable by making more shares available
5. The process in which all the costs of a business activity or production process are examined in order to help managers decide how to make profits or save money

- 1.....Transaction.....
- 2.....Trade barrier.....
- 3.....Balance sheet.....
- 4.....Dilution.....
- 5.....Cost accounting.....

V. Answer 2 questions based on the reading texts you have learned in your course book

1. What is financial analysis? How is financial analysis important?

Financial analysis is the selection, evaluation, interpretation of financial data. It's important because it assists many decision makers in making investments and financial decisions. It's used to evaluate issues such as employee performance, efficiency of operations and credit policies, and externally to evaluate potential investment and the credit-worthiness of the borrowers, among other things

2. What are common mistakes in setting prices?

companies usually make some common mistakes in setting prices. pricing is too cost oriented. Price is not revised often enough to capitalize on market changes. Price is set independently of the rest of the marketing mix rather than as an intrinsic element of marketing-positioning strategy. Price is not varied enough for different product items and market segments.

VI. E-V

1. The client company generally gives the advertising agreed budget, provides a statement of the objective of the advertising campaign and an overall advertising strategy concerning the message to be communicated to the target customers.

Công ty khách hàng thường đưa ra những ngân sách quảng cáo đã thỏa thuận, cung cấp mục tiêu của chiến dịch quảng cáo và chiến lược quảng cáo tổng thể liên quan đến thông điệp cần truyền tải tới khách hàng mục tiêu

2. The underdeveloped governments were afraid of being excluded from the world trading system by the development of trading blocks, so they tended to liberalize their economies, lowering trade barriers and engaging in international trade.

Những chính phủ kém phát triển lo sợ rằng sẽ bị loại khỏi hệ thống thương mại thế giới bởi những khối thương mại phát triển hơn, nên họ có xu hướng tự do hóa nền kinh tế của họ, hạ thấp các rào cản thương mại và tham gia vào thương mại quốc tế

Hoặc
